MISSION

Decal is committed to developing top quality services to ensure a sustainable future for its Employees and Customers, Authorities and Society. To this end, this commitment is explicitly enshrined in our different management system documents, our Quality, Health and Safety, Environmental Conservation and Sustainability policies, and our Crime Prevention and Control Model, which is underpinned by the Code of Ethics.

VALUES

Our mission is formalised in action as commitment to Employees, Customers, Authorities and Society through the following values and patterns of behaviour:

- Respect, honesty and transparency: towards people, towards our Code of Ethics as the framework for the development of our activity and towards the rules and regulations by which we are governed.
- Standards and working conditions: compliance with working standards, rules and regulations is the basis of our Staff organization, and every year we assess skills and performance, applying highly objective and transparent criteria to encourage professional growth and appropriate remuneration policy.
- Equal opportunities: the Company avoids all kinds of gender, age, race, religion, family situation or disability-based discrimination in addition to having established work-life balance policies for our Staff.

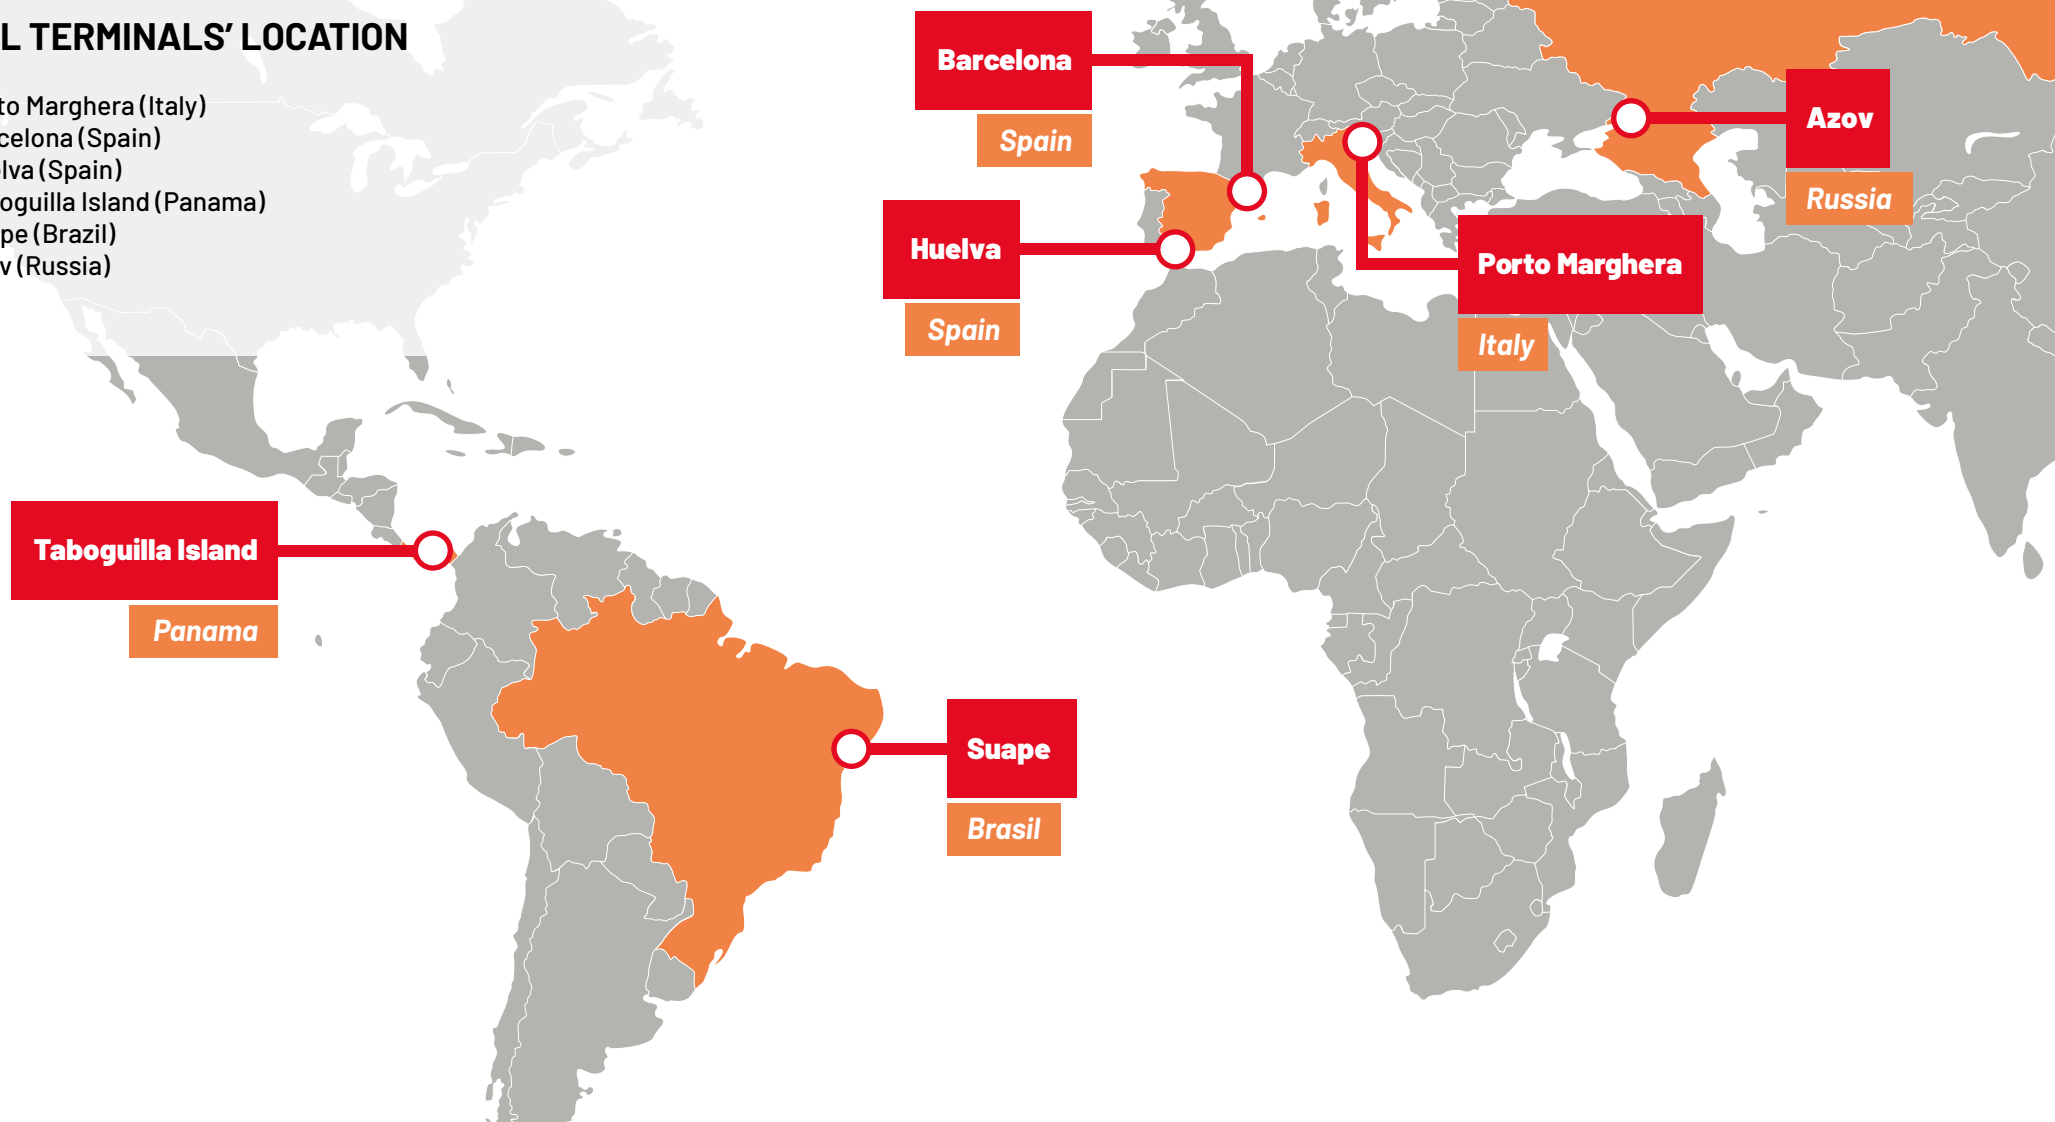

FACTS AND FIGURES

CORE BUSINESS

Management of independent Terminals worldwide for the storage of oil, chemical and petrochemical products, vegetable oils and biofuels on behalf of third parties.

DECAL TERMINALS' LOCATION

- Porto Marghera (Italy)
- Barcelona (Spain)
- Huelva (Spain)
- Taboguilla Island (Panama)
- Suape (Brazil)
- Azov (Russia)

SUSTAINABILITY

Sustainability is deeply related to Decal strategy. The approach adopted by DECAL Group integrates **sustainability into planning and control systems** and therefore into the management of the functions related to the economic activities we manage.

Competitiveness and sustainable development for local communities are the themes underlying the Group's approach to corporate social responsibility and sustainability.

Purpose, Mission, and values come together in the Code of Ethics. They are the foundations of behaviour at our company and the reference point for all the people working in our Group.

ENVIRONMENT

DECAL places great emphasis on safeguarding the environment and actively promotes programs and investments aimed at upholding the highest standards of environmental protection. We recognize that achieving compatibility between industrial operations and workplace safety, as well as environmental preservation, is critical to our success in today's competitive marketplace.

We are committed to implementing measures that minimize the environmental impact of our activities, while prioritizing the health and safety of our employees. We strive to integrate sustainable practices into our operations and continuously seek innovative solutions to enhance our environmental performance.

DECAL recognizes that responsible environmental stewardship is not only a moral obligation but also a strategic imperative for long-term success. We are dedicated to upholding the highest standards of environmental protection, and we actively engage in initiatives that contribute to the well-being of both our workplace and the environment.

HSSE

To ensure that Decal's business operations offer the best product quality guarantees and our facilities offer the best possible conditions of safety, respect to the environment while always guaranteeing the health of our employees and contractors, we have devised HSSE Policies to satisfy the needs of the customers who store their products at our Terminals. Another of Decal's key priorities is to maintain the sustainability chain of custody of the biomass and biofuels deposited by its customers in Decal's facilities.

GOVERNANCE

We operate with transparency in the interest of all stakeholders.
To do this, we manage the company through an effective and clear governance system.

DECAL's Code of Ethics contains the commitment to follow a model of conduct that is honest, respectful, responsible and coherent in the Company's relations with its directors, employees, clients, suppliers and external professionals.

SOCIETY

THE COMMUNITY

Decal social responsibility is strongly engraved in our actions and behaviours based on our strong sense of commitment to sustainability and community welfare.

Investments made in the nations where Decal operates are carefully aligned with and show deference to the local culture and society. These investments are executed through comprehensive programs that encompass various initiatives such as generating new employment opportunities, constructing state-of-the-art infrastructure and facilities, and supporting charitable endeavors.

PEOPLE

Decal firmly believes that people are a fundamental asset for the company's growth and the continual enhancement of our services. As such, we have always fostered a positive work environment that promotes the development of skills and dedication among our personnel.

The staff at Decal is recognized as a vital resource whose invaluable contributions drive our success. We hold high expectations for our employees, emphasizing honesty, responsibility and adherence to the strictest safety standards.

EMPLOYEES HEALTH

We are committed to investing in the professional growth and specialization of our staff through an ongoing process of comprehensive training. This enables our employees to continuously enhance their abilities and expertise, ensuring they are equipped with the knowledge and skills necessary to excel in their roles at Decal.

EMPLOYEES HEALTH

Caring for the well-being of our employees is crucial to our success, as teams and as a company.

Performing competitively in the evolving energy system requires healthy, capable people working safely together. Policies and Certifications adopted by the Group grant the respect of all people involved in our work.

Decal Italia S.p.A.

Italy - Marghera Terminal

Via Della Geologia 11, Marghera (VE) 30175 Italy

Email: portomarghera@decalstorage.com

Phone: +39 041 5499311

www.decalstorage.com

Porto Marghera Terminal

Total surface: 21.58 ha (land owned by Decal).

Products

- oil products (fuel oil, gas oil, gasoline)
- chemical and petrochemical products
- (alcohols, aromatics, glycols, ester, mixture, refinery intermediates)
- biofuels (biodiesel and bioethanol)
- jet fuel

Loading facilities (road)

- 23 single bays for bottom loading
- vapour recovery
- fully automated system

Services

- products reception (by tanker, truck)
- storage, segregation
- mixing, additivation
- products shipping (by tanker, truck or pipeline)
- bunkering
- nitrogen blanketing

Storage capacity

| | |
|----------------------|--|
| total capacity: | 326,575 m ³ |
| number of tanks: | 93 |
| range of capacities: | from 150 m ³ to 15,000 m ³ |
| handling capacity: | 500 trucks per day |

Shipping facilities

| | |
|--------------------|--------------------------------|
| private berth: | 2 |
| maximum tonnage: | 40,000 DWT |
| maximum LOA: | 220 m |
| available draught: | 10.4 M (equivalent to 34 feet) |
| beam: | no restriction up to 32 m |

service 24 hours a day
(shinc)

Loading hours

| | |
|-------------------|-------------------|
| Monday to Friday: | 4 a.m. to 7 p.m. |
| Saturday: | 4 a.m. to 12 a.m. |

Quality, Environmental and Safety Systems meeting the requirements of ISO 9001, ISO 14001 and ISO 45001.

Barcelona Terminal

Total surface: 12.86 ha.

Products

- automotive gas oil
- agriculture and heating gas oil
- fuel oil (2 grades)
- cutter stocks
- gasolines (2 grades)
- components for gasoline blending
- biofuels (biodiesel and bioethanol)
- fertilizer

Loading facilities (road)

- 10 loading points (8 single bays for bottom loading plus 2 double bays for top loading)
- fully automated system
- in line addition and blending of biofuels
- loading capacity: 500 trucks per day

Services

- products reception (by tanker, truck, pipe)
- storage, segregation
- heating
- nitrogen blanketing
- in line addition during ship discharge or truck loading
- blending in tank and automatic in-line blending for bunker products and biofuels
- drying of gas oil for agriculture and heating
- products shipping (by tanker, truck, pipe and barge)
- bunkering
- connection with the Exolum piping network and other Terminals in Barcelona
- biodiesel in-line blending (from GOA to B100)
- bio ethanol in-line blending with gasoline

Quality, Environmental and Safety Systems meeting the requirements of ISO 9001, ISO 14001, ISO 45001, EMAS, ISCC, AEO, SNVS.

Company certified in the UNE 19601 Criminal Compliance Management System.

Company adhered to the Luxembourg Declaration.

Storage capacity

| | |
|----------------------|--|
| total capacity: | 495,000 m ³ |
| number of tanks: | 32 |
| range of capacities: | from 100 m ³ to 35,000 m ³ |

Shipping facilities

| | |
|--------------------------------|--|
| maximum tonnage: | 175,000 DWT |
| maximum LOA: | 275 m |
| available draught: | 15.65 m (equivalent to 51 ft) |
| beam: | no restriction |
| service 24 hours a day (shinc) | 3 jetties for ship discharge + 3 dedicated for barge loading |

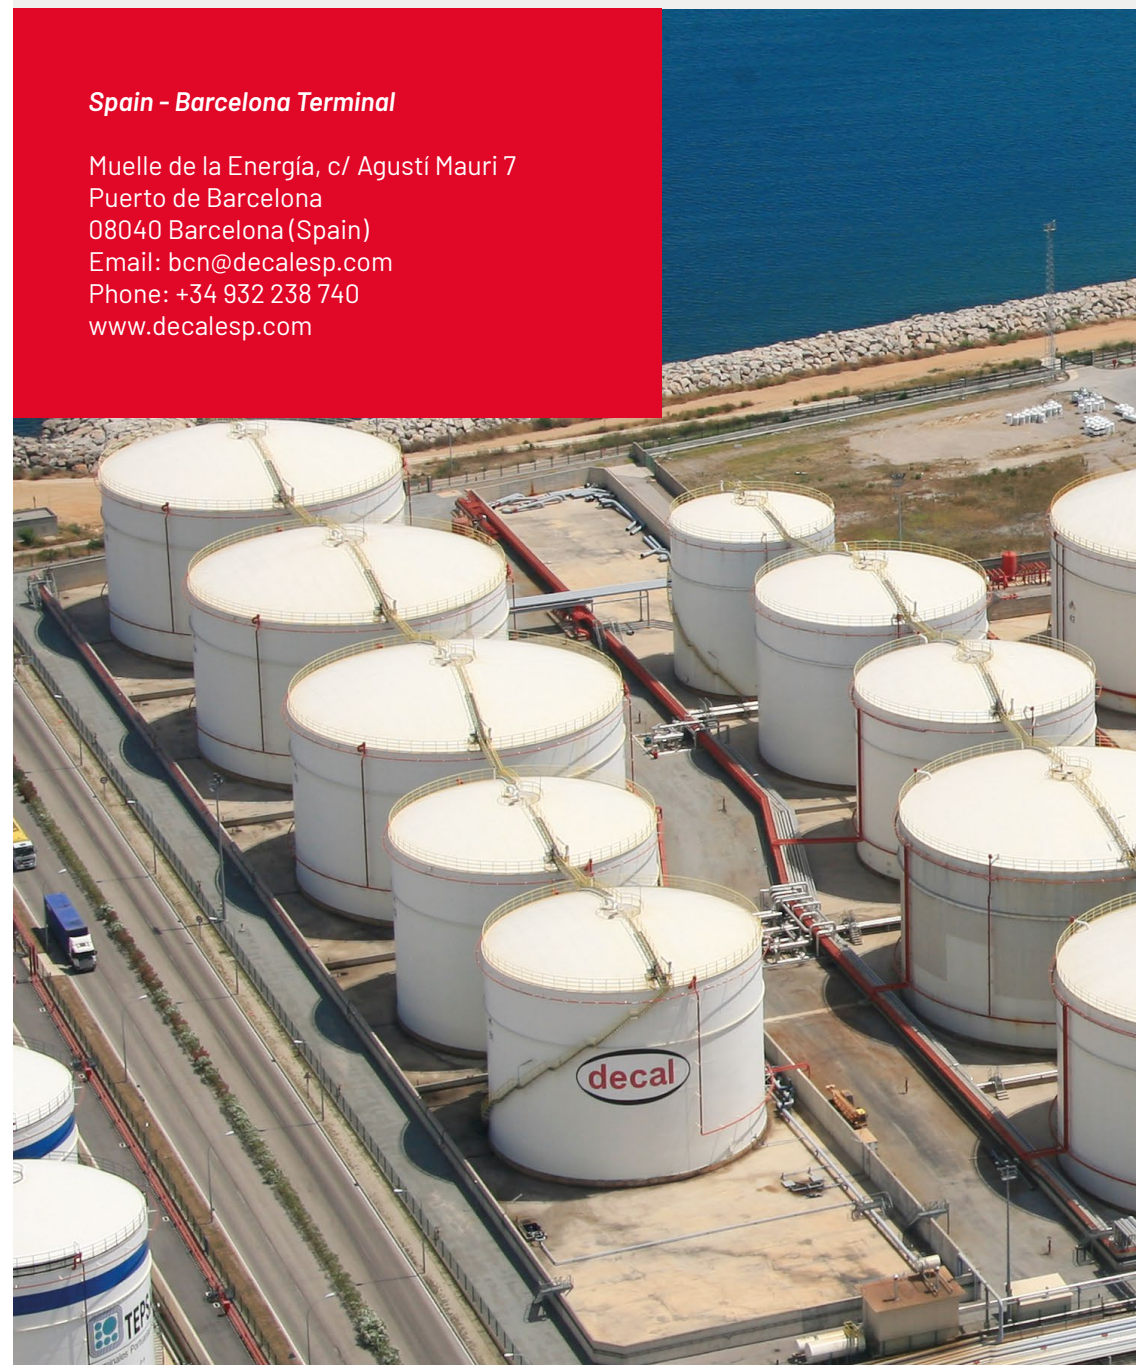

Loading hours

| | |
|-------------------|-------------------|
| Monday to Friday: | 2 a.m. to 8 p.m. |
| Saturday: | 4 a.m. to 12 a.m. |

Huelva Terminal

Total surface: 17.95 ha.

Products

- automotive gas oil
- agriculture and heating gas oil
- gasolines (2 grades)
- biodiesel and bioethanol
- vegetable oils
- fertilizers
- kerosene
- raw material for second generation biodiesel production
- methanol
- fuel oil

Loading facilities (road)

- 5 loading points (3 single bays for bottom loading plus 2 double bay for top loading)
- fully automated system
- in line addition and blending of biofuels
- loading capacity: 200 trucks per day

Services

- products reception (by tanker, pipe, truck or rail - vegetable oils and FAME)
- storage in commingled or segregation
- heating
- nitrogen blanketing
- in line addition during ship discharge or truck loading
- drying of gas oil for agriculture and heating
- products shipping (by tanker, truck, pipe or rail - vegetable oils and FAME)
- connection with the CLH piping network, with CEPESA refinery, BIOSUR biodiesel plant and with LIPSA veg'oil refinery
- biodiesel blending (from GOA to B100)
- bunkering
- gasoline blending
- biodiesel components blending (SME, PME, RME, TME, UCOME)

Storage capacity

| | |
|----------------------|--|
| total capacity: | 710,000 m ³ |
| number of tanks: | 70 |
| range of capacities: | from 2,500 m ³ to 40,000 m ³ |

Shipping facilities

| | |
|--------------------------------|------------------------------|
| maximum tonnage: | 50,000 DWT |
| maximum LOA: | 210 m |
| available draught: | 12.6 m (equivalent to 41 ft) |
| beam: | no restriction |
| service 24 hours a day (shinc) | 3 dedicated jetties |

Loading hours

| | |
|-------------------|-------------------|
| Monday to Friday: | 4 a.m. to 8 p.m. |
| Saturday: | 4 a.m. to 12 a.m. |

Quality, Environmental and Safety Systems meeting the requirements of ISO 9001, ISO 14001, ISO 45001, EMAS, ISCC, OEA, SNVS, Kosher, Halal.

Company certified in the UNE 19601 Criminal Compliance Management System.

Company adhered to the Luxembourg Declaration.

Taboguilla Island Terminal

Total surface: 20 ha (land owned by Decal).

Products

- gas oil, marine diesel oil
- fuel oil 380, fuel oil 180, intermediate fuel oils
- VLSFO (Very Low Sulfur Fuel Oil)

Loading facilities (road)

- 4 barges loading points
- fully automated system
- in line blending

Services

- products reception by tanker
- storage, segregation
- blending in tank and in line
- bunkering
- products shipping by barge
- products heating

Storage capacity

total capacity: 356,500 m³

number of tanks: 26

range of capacities: from 5,000 m³ to 35,000 m³

handling capacity: 4/5 barges per day

Shipping facilities

private berth: 1

maximum tonnage: 70,000 DWT

maximum LOA: 250 m

available draught: 15 m (equivalent to 49 ft)

beam: no restriction

service 24 hours a day,
365 days a year

Loading hours

Monday to Sunday: 24 hrs a day, 362 days a year

E-mail: info@slilubricants.com
www.slilubricants.com

SLI

Decal also controls SLI - Società Internazionale Lubrificanti, located in Vignole Borbera (AL).

SLI specialises in the third party production and storage of lubricants and similar products for automotive and industrial applications. The company renders its services to well established oil companies all around the world, as well as to smaller retailers selling lubricants under their own brand. SLI covers an area of nearly 9 ha (land owned by SLI).

High flexibility at plant level enables the Company to produce diversified product quantities by means of blenders of different sizes, ranging from 1.6 m³ to 100 m³, allowing SLI to meet its diverse customers' needs.

SLI's core business is the blending and filling activity of lubricants and similar products especially in the automotive line.

To grant a complete satisfaction of customers' need SLI offers the storage of about:

- Base oils 8,300 m³
- Additives 2,300 m³ (in 41 segregated tanks)
- Finished bulk products 1,000 m³
- Non-lubricants 500 m³ (in 10 segregated tanks)
- Packaged products 12,000 m² computer managed warehouse with a pallet storage system holding up to 11,000 pallets. The warehouse is managed by a computer integrated bar code reading device which monitors in real time all movements and allocation. Truck loading is carried out directly inside the storage room by means of a system that can load 8 trucks at the same time.

Integrated and modern infrastructures ensure continuity of supplies. State of the-art equipment and a fully automated production process complete SLI's services.

Quality System meeting the requirements of ISO 9001 and ISO 14001.
